HORRIBLE CRIME.

Family of Six People Were Murdered.

Scene of the Terrible Slaughter Was on the Headwaters of Big Sandy, in Virginia.

Sometime during Tuesday night of last week, fiends in human form entered the home of Mrs. Bettie Justice on Laurel Fork of Knox creek, about one mile from Hurley, and, after securing a sum of money, said to be about \$2,400, killed Mrs. Justice, her daughter and son-in-law, Mr. and Mrs. George Meadows and their three babies. The house was then fired to hide the evidence of the crime.

Some of the victims were shot to death, but the fiends used other weapons to compass the death of their victims. All the bodies except that of Meadows were incinerated but a search revealed Meadows' charred remains a short distance from the ruins. His skull had been crushed with some blunt instrument.

The object of the fearful crime was robbery, it being known that Mrs. Justice had a large sum of money about the house. On the day before Meadows had drawn about \$400 from the Ritter Lumber Company for some timber and it is presumed that this fact was also known.

It is stated that Mrs. Justice secured \$2,000 from an insurance company that carried a risk on the life of her first husband. Justice, it is claimed, was killed by Mrs. Justice's father some time ago. Mrs. Justice married a man by the name of Blankenship but did not live with him long, and was known in the neighborhood by the name of Justice.

This appalling tragedy has aroused the section in which it occurred as it has never been stirred before. Large posses of men from points along the N. & W. railroad and from the counties adjoining Beckanon, the county where the awful deed was committed, have been in pursuit of the fiends. Several men have been arrested, but so far the crime has not been fixed upon anyone.

Come Again, Buckles.

A. O. Buckles, who lives on R. Holbert's farm near Rineyville, is the boss corn cutter in Hardin county. This year he, with twelve hands, cut 115 acres, amounting to 1,400 shocks in four days. That's certainly going some.—Elizabethtown News.

Well, let's see: Twelve hands in four days will do as much as one hand in 48 days. Cutting 1,400 shocks in 48 days is equal to cutting not quite thirty shocks per day.

Yes, "that's certainly going some." But listen: On the John Lockwood farm, seven miles south of Lockwood station on the C. & O. railway, Pick Lockwood, on a wager cut and shocked one hundred shocks of corn between daylight and dark. This is a fact, amply attested. The corn grown in the Lockwood bottom is noted for its large size.

Wolcott Again.

Another dupe was in Louisa this week investigating his title to 400 acres of land lying "in the Walnut Grove addition to the town of Louisa." This latest sucker is an elderly, well appearing man from near Greencastle, Ind. He bought his pig in a poke and then came to see if he liked it. What he threw away his good money for is covered by the infamous Wolcott survey, that perennial swindle which has separated so many men from so much hard cash. The gentleman from Indiana returned home on Wednesday, knowing more than when he came.

The Last of the Season.

The last Sunday excursion on the Big Sandy division was run on Sunday last. The day was fine and the crowd from Pikeville and along the road was very large. There were no fatalities this season, and the conduct of the excursionists was almost uniformly good.

C. Crane Buying Right of Way.

C. Crane, of Cincinnati, has been buying right of way on Buffalo creek, Logan county, for a large timber operation which he will start soon. Buffalo creek runs into Guyan river about thirteen miles from Logan. This creek is about twenty-five miles long and contains the only absolutely virgin forest in the Guyan valley. It contains many thousand acres that has not been timbered at all and consists of walnut, poplar, oak and other valuable forest timber. Besides timber it is also a rich coal field which will be developed soon.

Mr. Crane has bought practically all the right of way, or about three-fourths, and that being what was counted the most difficult to purchase.

C. Crane & Co. will lay a steel track, as for a wide gauge railroad. The job will last six or eight years.

Ironton Postmaster Removed.

Postmaster John Strobel has been removed from office by a Government Inspector, and Assistant Postmaster R. S. Wiseman placed in charge. Congressman Johnson has recommended ex-County Treasurer Jere Davidson for the vacancy. Strobel has been Postmaster for 12 years, and his removal has caused a sensation.

Saturday evening the Government Postoffice Inspector happened into the Ironton postoffice and found Postmaster Strobel short in his account to the amount of \$1,400, and at once dismissed him, placing Assistant Postmaster Wiseman in charge of the office. Several months ago the postmaster was short \$1,000 but made the amount good.

Entertained With Flinch.

In honor of Mrs. J. B. Hannah Mrs. F. L. Stewart entertained very handsomely with a flinch party on Wednesday evening. The company assembled early and played to a late hour, enjoying the games and delicious refreshments greatly.

Very much to their regret men were not "among those present," the pleasant affair having only ladies as participants.

NEW MARSHAL FOR LOUISA

James Vinson Elected to Succeed Dave Wellman, Who Skipped Out.

It became known about Thursday of last week that Dave Wellman, at that time City Marshal, was missing. Inquiry revealed the fact that he had been gone several days, leaving no word as to his whereabouts. On Thursday, however, his wife received a letter from him dated at Birmingham, Ala., in which he said he had left Louisa for good and would never return.

The news of his flight caused considerable excitement, and all sorts of rumors filled the air. Some of these may be true, but the only positively certain thing in this connection is that Wellman is gone, leaving his wife in destitute circumstances, with six children to support. Three of these children are by a former husband.

When it became known beyond a doubt that Wellman had absconded the City Council met in called session and elected James Vinson, a former jailer of this county, to succeed him. Mr. Vinson gave bond and at once entered upon the discharge of his duties. He is a sober, honest man, prudent and courageous, and will no doubt make an excellent officer.

Remarkable Guessing.

It will be remembered that for several days recently a big sunflower was shown in one of Nash & Herr's big windows. You were invited to buy something, each purchase entitling you to guess on the number of seeds in the flower, the one guessing the nearest to the exact number to get a pair of four dollar shoes. The seeds were counted on last Saturday night and the number was found to be 1853. It was also found that Wallace Millard and John Wade, of Louisa, had guessed the precise number of seeds. The tie was settled by Millard paying John a dollar and a half for his share.

M. E. Church Conference.

The Kentucky Conference of the M. E. Church closed at Maysville on Monday last. The following are the appointments for the Ashland district:

District Supt., J. M. Ackman.
Ashland, First Church, J. I. Wean.
Ashland, Second Church, Amon Boreling.
Moline, W. M. Walker.
Catlettsburg, A. H. Davis.
East Point, J. A. Scott.
Fullerton, J. S. Singleton.
Gallup, Cyrus Riffle.
Grayson, D. M. Carpenter.
Greenup, C. B. Plummer.
Louisa, Thomas Hanford.
Louisa Circuit, Chas. Moore.
Olive Hill, G. W. Howes.
Paintsville, J. M. Litteral.
Pikeville, A. F. Felts.
Pikeville Circuit, A. P. Wilson.
Russell, E. H. Edwards.
Russell Circuit, J. A. Williams.
Salt Lick, J. A. Ragan.
Salt Lick Circuit, C. N. Vaughan.
Sulleyville, W. G. Bradford.
Tollesboro, Bird Hughes.
Vanceburg, O. J. Ragan.
Vanceburg Circuit, H. D. Cooper.
Wallingford, W. H. Munsey.

The next session of the Conference will be held at Paintsville.

The Coming Concert.

Lest you forget the NEWS will say that on Monday evening next at the court house the Columbia Concert Company, composed of five ladies and gentlemen, each of whom is a talented musician, will give a concert, in part for the benefit of the Southern Methodist Church of this city.

The program will consist of high class music, selected with the view of pleasing all lovers of good music, while the selections will be chosen also to please all tastes. The NEWS can and does guarantee that a concert of such excellence was never before heard in this city. All who are fond of good music will enjoy a decided treat by attending this concert, and will also assist a noble cause.

The NEWS has also been assured that perfect order will be maintained. In some previous public entertainments given here the audience has occasionally been disturbed by the actions of boys who probably knew no better, poor things, but no demonstrations of this sort will be permitted next Monday night.

Good Cattle Scarce and High.

Good quality feeding cattle are as scarce among marketing at all points at this time as they were a few months ago. Those who have well-bred young steers evidently feel that they are worth more at home, with a record corn crop in course of growth, than at market, says Drovers Journal. Feeder cattle buyers are confronted with a situation which possibly many had not anticipated. Those who did not stock their pastures with the relatively cheap steers available a few months ago, and who now come to market looking for good quality kinds, find that such grades can only be bought by competing with killers and paying killers' prices. A short time ago both corn and feeding cattle were considered too high in price. A few weeks hence the feeders may not stop to consider corn values, but may face a much higher cost of feeding steers.

Have Gone to Texas.

A. C. Pigg and family have gone to Houston, Texas, having left this city on Tuesday last for their future home. Mr. Pigg will pursue his profession as architect. He has had much experience in this vocation, and has an excellent reputation for skill and ability.

Mr. and Mrs. Pigg are very worthy, highly respected people, and their many Kentucky friends wish for them a pleasant and prosperous stay in the South.

Has Brought Suit.

T. J. Spencer, as administrator of the estate of his son, T. J. Spencer, Jr., has instituted suit in Johnson Circuit Court against the Northeast Coal Company for damages growing out of the death of his son who was killed in the early spring at the company's mines. C. B. Wheeler, of Ashland, and M. S. Burns, of Louisa, represent the plaintiff.

COUNTY UNIT BILL

Advocated by Hon. Jerome Prichard, of Boyd.

Candidate for State Senate Announces His Position on the Temperance Issue.

Hon. Jerome Prichard, of Boyd county, candidate for the State Senate, was in Louisa this week meeting the voters. Many of our older citizens almost felt that they had known him before, as he very much resembles his lamented brother, Hon. Keene F. Prichard, formerly a citizen of Louisa and a well known lawyer.

Mr. Prichard is a prosperous farmer and a man of more than ordinary ability. He is all that could be desired as a citizen, being clean in morals and upright in his life. He is outspoken on the liquor question and stands for the County Unit bill, which will be an issue in the next Legislature. Mr. Prichard does not to deceive any one as to his position on the question and he therefore announces that he is a temperance man. In the Senate he will support the County Unit bill. By voting for him you can practically cast a ballot for this desirable law yourself.

Mr. Prichard is not an office seeker. This nomination came to him unsolicited, but he feels that his election would enable him to be of service to his district and he has entered into the campaign just as earnestly as though the office of Senator were remunerative and highly desirable. He wants to win, now that he is in the race, and it remains to be seen whether the temperance people will be true to their colors. The issue is clearly defined and the race so made up that the only temperance vote you can cast in the Senatorial contest is for Prichard.

THE TOWN OF VAN LEAR.

Item as Sent Out From Baltimore About New Big Sandy Town.

Baltimore, Md., Sept. 26.—The Consolidation Coal Company is progressing with its plans for the proposed development of 30,000 acres of coal lands near Paintsville, Ky. It will expend about \$3,000,000 for its initial mining plant, including two power plants of 600 kilowatts capacity, standard gauge steam railroad, steel bridge over Big Sandy river 400 feet long with concrete piers, and other facilities.

The new town will be called Van Lear, for Mr. Van Lear Black, of Baltimore, who is interested in the company. Four hundred dwellings are already under construction, the houses to be wired for electricity and piped for sewage and water.

Contracts have been awarded M. G. Watson, of Louisa, for the construction of the railroad from Miller's Creek Junction, on the Big Sandy branch of the Chesapeake & Ohio railway, to the mines, and for the construction of the bridge over the Big Sandy river.

Contracts have also been awarded for the construction of the water-works and electric light plant. The company intends to develop its mines to a capacity of about 4,000 tons a day.

Wants the News.

In sending her subscription for the NEWS Mrs. A. C. Malestata, formerly of Fullers, but now of New York, writes as follows:

You may let all my Kentucky friends know through the columns of your paper that my husband, son John and myself are all enjoying good health as well as enjoying visiting many places of note in New York City. With success to the NEWS. Very Respectfully,
Mrs. A. C. Malestata.

Our Legislative Candidate.

W. J. Vaughan, of Louisa, field worker for the State Sunday School Association, and recently nominated by the Democrats for State Representative, was in our city today, shaking hands with friends, renewing old acquaintances, and making new ones. No one was more surprised than was Mr. Vaughan when he received the news of his nomination. Truly "some are born to greatness, some achieve it, and others have it thrust upon them," and it was the latter with him, but he accepts this honor graciously, and goes in the battle with a vim, and with a determination to win. With the great efforts of his friends, who will rally about him and support him to a man, Mr. Vaughan expects to roll up a handsome majority on November 2nd. He is an exceptionally pleasant gentleman, and makes friends wherever he goes.—Ashland Independent.

Earthquake Startles Louisville.

An earthquake was distinctly felt in Louisville and Jefferson county, about 3:45 o'clock Monday morning. It was the most severe in the country and suburbs a few miles out of the city. The clerks at the office of the local Weather Bureau were kept busy that morning answering telephone inquiries of the disturbance.

Reports from various sections indicate that the disturbance was general through the Central States, as far west as St. Louis, Mo., and extending through Southern Indiana and Central and Western Kentucky. No serious damage was done, but in many places the people were frightened and fled from their homes. Several chimneys were leveled, doors, windows and chinaware were rattled, and buildings were shaken.

Rev. Reid Will Preach Sunday.

The Rev. W. L. Reid, pastor of the M. E. Church South, will hold services next Sunday, morning and evening. He is now domiciled at the parsonage, having come up from Catlettsburg on Thursday. Mr. Reid ranks high in the Western Virginia Conference as minister and man. His latest pastorate was in Catlettsburg, where he was very acceptable to his people and to the public. There should be a full attendance at the service next Sunday to welcome the new pastor. Much depends, both as to preacher and people, upon the kind of start which is made at the beginning of the Conference year. The impression made then upon both flock and shepherd counts for much.

Big Sandy Merchandise Company.

On the first of October, J. C. Adams, of the Alger Hotel, will resign from the management of this popular hostelry, and will be succeeded by Will Cecil. Mr. Adams has successfully conducted the business for several months, and is well liked by the entire public. Immediately upon Mr. Cecil assuming the management of the hotel, Mr. Adams will enter the store of the Big Sandy Merchandise Co., on Division street, of which he is a partner with Mr. Wellman, and doing an immense business through the Big Sandy valley, and at present have two salesmen on the road.—Catlettsburg item.

Change in Produce Business.

F. B. Brown has sold his interest in the Big Sandy Produce Company to C. F. Millender, who has been one of the owners from the beginning. Mr. Millender will move his family to Louisa from Huntington. Mr. Brown has not yet decided what business he will engage in. We hope he will decide to remain in Louisa, as he is a good citizen. Louisa people are glad to have the Millender family back again.

Elected Officers.

The annual election of officers for Louisa Chapter No. 95, R. A. M., held September 24, resulted as follows:
A. J. Conley, H. P. T. L. Muncaster, K. A. M. Hughes, S. G. R. Burgess, C. of H. G. A. Nash, P. S. J. L. Carey, R. A. C. G. R. Lewis, M. 3 V. H. G. Wellman, M. 2 V. E. C. Jenks, M. 1 V. S. J. Justice, Sec., C. C. Hill, Treas., N. D. Waldeck, Sentinel, H. B. Hewlett, Chaplain.

Charged With Murder.

Among the indictments found by the late grand jury is one charging Bob Hardy with the crime of murder. A few months ago an aged woman known as the widow Sloan was found dead in the yard of a house on Caines Creek, about five miles from the town of Blaine. The coroner's jury found a verdict of death from unknown causes, but subsequent events aroused suspicion. This suspicion grew and strengthened until it was sufficient to cause Hardy to leave the neighborhood.

He lived at the house where Mrs. Sloan made her home, and he made no attempt to conceal his hatred of the woman. When last seen alive she was on the porch of the house, and shortly afterwards she was lying dead in the yard with, so it is said, a wound on her head, evidently made by a heavy blunt instrument. These facts were developed before the grand jury and resulted in the finding of the indictment. When last heard from Hardy was in Greenup county.

Not Sustained.

In federal court at Huntington the charges of robbery which had been entered against deputy marshal Dan Cunningham were not sustained and the marshal was exonerated by the jury.

The woman who brought the charges, a Mrs. Bob Hunter, was convicted of illicit retailing of whiskey and was fined \$100.

It is reported that a number of people of prominence in Boone county, W. Va., where the Hunters reside, may be arrested for having taken part in formulating the charges against Cunningham.

Eloped and Were Married.

On Monday last Miss Alpha Riffe, daughter of W. J. Riffe, of Ratcliff, this county, and Howard Wilson, came to this city and were married at the residence of John Riffe, the Rev. H. B. Hewlett officiating. About the first of September Elva Riffe, a sister of Alpha, eloped with Bob Roberts and were married not far from her home. All these parties have gone to Holden, W. Va.

CIRCUIT COURT ADJOURNED.

Results in Some Important Cases During Past Week.

Circuit Court finally adjourned Thursday morning and Judge Hannah has gone home. The grand jury adjourned on Saturday last, having found 114 indictments, five of which are for felonies.

In the case of Arch Borders against the C. & O. railway for damage for personal injury the jury gave him \$1900. The jury failed to agree in the case of Arthur Preston against the same company for damage caused by the burning of his barn and its contents, alleged to have been caused by sparks from a locomotive.

The jury disagreed in the case of Dow McCoy, charged with burning William Thompson's barn, and McCoy has not yet been able to give bond.

The case against See Carter and Jonas Payne for stealing a ballot box in the school election in 1908 resulted in an acquittal.

Trust Company for Paintsville.

John C. Mayo, J. W. Auxier, F. M. Williams, John E. Buckingham, Jas. W. Turner and other stockholders of the Paintsville National Bank, together with H. M. Stafford, Judge A. J. Kirk, H. B. Rice, J. L. Patterson, C. T. Rule, J. P. Wells, D. J. Vance and other citizens, have organized a Trust Company for Paintsville. The new company will have a capital stock of \$50,000.00. H. M. Stafford will be president; Judge A. J. Kirk, vice-president; H. B. Rice, secretary and treasurer.

City Convention Called.

The Democrats of Louisa are called to meet in mass convention at the City hall on Wednesday evening, Oct. 6, 1909, to nominate candidates for City Council.

Sorghum making is at present occupying the minds of most of our farmers.

Several from this place attended church at Garred Chapel Sunday.

Mrs. John Miller is suffering from a raising on her arm.

Miss Gertrude Stewart, who has been visiting her aunt at Peach Orchard, has returned home.

Miss Nola Hickman was the guest of Miss Lizzie Carter Saturday.

There will be church at this place the second Saturday and Sunday in October by Rev. Ratcliff.

Misses Bertha, Jettie and Minnie Childers and Della Reynolds were visiting at Henry Hinkle's Saturday.

Mr. Williams, the Singer Sewing Machine agent, passed up our creek one day last week.

Our school is progressing nicely under the management of Miss Lizzie Carter. Everybody is well pleased with the school. "Brave Washington" was mistaken about so many of the pupils being whipped. While we have a large school and large attendance, only a few of the small boys have had to have the rod used on them. A Mountaineer.

There is scarcely a man, woman or child in this Legislative district who does not know W. J. Vaughan, and favorably, too. While he was not a candidate for the nomination he has very graciously accepted it and would appreciate the largest vote possible in this, his home county, whether elected or not. There is a large adverse majority in the district for him to overcome and it is almost too much to hope that he will do it. But a large vote of confidence from his home county would take away the sting of defeat.

REAPING BENEFIT

From the Experience of Louisa People

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Louisa residents on the following subject will interest and benefit thousands of our readers. Read this statement. No better proof can be had.

G. W. Pack, of Louisa, Ky., says: "I was employed on the railroad for about five years and last May while doing some work in a stooped position, I was suddenly taken with a catch across the small of my back. It seemed just as if some one had thrust a knife into me. After that any work that required me to stoop made me miserable. Doan's Kidney Pills were finally recommended to me and getting a supply, I began their use. The contents of one box completely removed my trouble and I am now in good health."

Mr. Pack gave the above statement in January, 1908, and on June 21, 1909, he said: "I have never had the least trouble from my back since Doan's Kidney Pills cured me. I always take pleasure in saying a good word for this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—DOAN'S—and take no other.

Hudson-Fulton Celebration.

The waters surrounding the city of New York have been this week the scene of the most brilliant pageant known to historic times. The greatest number of battleships ever before gathered in one place was assembled in the bay and harbor of the city. Not only were the ships of the American navy assembled, but other nations sent their ships to assist in this wonderful show.

The occasion was the ter-centenary of the discovery of the Hudson river by Henry Hudson, and the celebration of the discovery by Robert Fulton of the use of steam in the navigation of vessels.

Who they were and what they did:

HUDSON.

Born about the middle of the Sixteenth century.

On his third attempt to locate the Northwest passage to India, discovered the river which bears his name.

In 1610, on his fourth voyage, discovered Hudson Bay.

On the way homeward his mutinous crew abandoned him and his son and seven sailors who had remained faithful. All supposed to have perished in an icy sea.

FULTON.

Born in Little Britain (now Fulton Township), in Lancaster county, Pennsylvania, in 1765.

In 1797 went to Paris to study art. In 1803 designed and submitted to Napoleon the plans for a side-wheel steamboat. This was constructed, but was sunk in the Seine by a heavy wind.

Devised various ways for sinking ships with torpedoes.

September 25, 1807, steamed up the Hudson with the first steamboat, the Clermont.

Died in New York, February 24, 1815.

Robert Fulton's triumph of mechanical genius has given to all navigable waters of the earth a value which they did not previously possess; has reduced the ocean, in point of time of crossing, to one-sixth of its former expanse; has fortified the earth's great maritime nations in their power and promoted the universal brotherhood of man.

Ulysses.

A few days since a gun was accidentally discharged in the hands of Mervda Bevins, of Lowmansville, the whole load of shot taking effect in the thighs of his little three year old child, tearing away flesh and muscle and mangling its limbs in a horrible manner, but fortunately no bones are broken. Its recovery is thought to be doubtful. Mr. Bevins' grief over the accident is almost unconsolable.

FARM NEWS.

ORCHARD AND GARDEN.

A bruised apple is a spoiled apple.

Fruit that goes to waste is money dropped through a knothole.

Look all the ladders over before you begin to pick fruit. Rounds can be mended easier than limbs.

'Tis too late to set strawberry plants in the North, but currants, gooseberries and blackberries may be planted now if you mulch them well.

If the strawberry bed isn't "clean as a whistle" when it goes into winter quarters this fall, you won't whistle very loudly over your berries next June.

Fruit stones for sowing should be washed clean and placed in boxes of damp sand until wanted. It is very essential to keep the stones moist from gathering to sowing time. Planting may be done in late fall or early spring.

Currants and gooseberries may be planted as soon as the leaves fall. On the work can be left until early spring. Cut back one-third of this year's growth, and thin out surplus, diseased or unthrifty shoots. Old bushes may have two-thirds of the present year's growth removed. Do not prune the new canes of raspberries and blackberries until spring, the old canes should have been cut out long ago. It is too early to prune grapevines.

Picking apples: It is best not to pick winter fruit during very warm days. Do the work before ten o'clock in the morning, or wait until a cooler day. More hints: Never pick fruit while it is wet, nor pack it while it is warm. Some careful growers pick their orchards more than once, gathering the fruit as soon as it is well colored, leaving the poorly colored and immature fruits until they have become well colored. Pick apples with the stems on. Keep the sun away from picked fruit. Fruit keeps and ripens best in a cool, dark place. If you store fruit in a cellar or storage room, keep the windows open nights and shut them during the daytime; thus you can get the temperature down and keep it so until winter comes.

CAUTION ON THE FARM.

Better have patches on your pants than a lot of unpaid bills and threatening creditors.

How can any man sleep well at night when he has scolded and whipped his horse all day.

Beginning to think about your wood pile? That's right. Cold nights make us creep up about the stove.

Enough dry wood and chips to last a week ahead is riches; fire out and the last stick gone is poverty.

If you tell a boy, day after day, that he isn't earning his salt, he will soon be likely to work down to that estimate.

If the soil needs underdraining, now is an excellent time to lay the tiles. They should be at least two and a half feet deep.

Don't give the cats and dogs stale dirty or soapy water to drink. See that it is clean and fresh. You know how it is yourself.

It pays better to be behind everybody else in getting fall grain sowed.

and thus have the ground well stirred, than to hog over it and have it half done.

Money spent on booze is wasted, spent on clothes is vanity, spent on food is gone, and fooled away is wicked; but money spent for seed or a fruit tree is wisely invested.

The patrons along a rural route are apt to expect too much from the carrier. It would be a great help to the farmer to apply to the government for a copy of the postal laws in reference to the regulation of rural carriers.

Are you planning to build a new house this fall? Don't make it too large. Many houses are so large that the women folks are kept scrubbing a good share of the time. Large enough for all practical purposes, but no larger, should be the rule.

In an address on the subject of corn, Professor Beal remarked that the top-most ear was the best for seed; of two fields, one planted with seed taken at random and the other selected in the field, the latter yielded as much again as the former.

If rye is sowed this fall as a green manure for potatoes next season, I believe it would be better to plow it under next spring after it gets a good start and not wait till it gets tall. Then the rye will rot better before planting time and you will get more good from it.

Keeping cabbages: Select a dry place in the patch, pull up the cabbages and stand closely together, heads down. Cover with soil from five to ten inches, thinly at first so they will not heat, covering only enough to prevent freezing as the season advances. The burying beds may be made from four to six feet wide.

The following method will appeal to every farmer as the easiest, quickest and least expensive plan for storing all kinds of fruit and vegetables, from a potato to a pumpkin: Arrange the fruit or vegetables in a long row, as high and as wide as would seem advisable. Spread a little hay over them, and set up fodder on each side to the desired thickness—say, three or four feet. This affords excellent protection from ordinary cold; and in the case of pumpkin, turnip or cabbage storage, or any other article fed to stock, you have the means at hand with which to form a most desirable balanced ration as you feed out the corn and fodder. This method will prove especially valuable to renters and others who are compelled to move early in the spring, when it would be extremely unhandy to chop through the frozen ground, and "fish out" fruit or vegetables from the old-fashioned "hole" or pit.

OUR NEIGHBORS.

The Methodist church is installing several fine stained glass windows.—Prestonsburg Herald.

On Monday night the midnight air was stirred by the alarm of fire. The smoke and flames guided the fire brigade (which here includes everybody) to the jail house, Prestonsburg, where a desperate effort had been made by several prisoners in concert to escape. Not much damage and no prisoners escaped.

The Colonial Coal Co. began the work Monday of opening mines on the property recently leased from F. A. Hopkins across the river in the Kelee Hollow.—Prestonsburg Herald.

W. F. Morell, who formerly lived at Shelbyana, Pike county, Ky., has moved to this place, and is now engaged in the hardware business with his brother, James M. Morell. He is a practical business man, and we are glad to have him back with us.—Prestonsburg Herald.

The walls of the new First National Bank building, Prestonsburg, are rapidly going up. The glazed brick which are being used will undoubtedly make it, for appearance, one of the handsomest buildings in the Sandy Valley.

In addition to the sextuple murder on Knox creek a brother of John B. Dutton, formerly of the West Virginia hotel here, was shot from ambush one day last week. The wound is of such a serious nature that Dutton has only a slim chance to recover. It is not known who did the shooting.—Mingo Republican.

Harry Geiger, brother of Cook Geiger, of Paintsville, was killed in a logging camp at Drift, Va., last week. Charles Harmon, who roomed with Mr. Geiger, is held on a murder charge, but declares that the death of Geiger is due to an accidental discharge of a shotgun in the hands of the decedent. Harmon was the only witness to the killing.

James Reed, a Magoffin county laborer, employed by the Cumberland Pipe Line Company in relaying the pipe line through this section, became violently insane while working at River and was brought to this place and later sent to Salyersville, to be tried on a lacy charge. It is supposed that Reed got overheated.—Paintsville Herald.

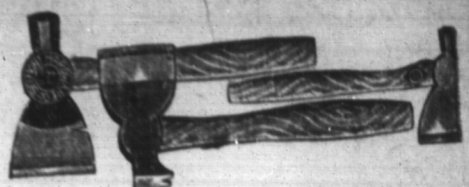

Great excitement was created in the town of Matean last Friday morning about 3:30 when the fire alarm sounded and the people saw the home of F. A. J. Ferrell on fire. It was known that the old man Ferrell, now past his eighty-fourth year, was living in the house alone. Until a few weeks ago Hawk Bishop had lived with him, but had recently moved out, so it was at first feared that the old man might be burned up, but it was later found out that his wife, who has been living in Huntington for the past three years was in town and was present in the house. In spite of the efforts of the Matean fire fighters, the old house, in which Mr. Ferrell lived for fifty-seven years, was burned to the ground. The building carried \$2,500 insurance. There is scarcely a doubt that the fire was of incendiary origin. The state fire marshal was in Matean to examine into the matter, and it is rumored that at least one arrest is likely to follow soon. Much sympathy is expressed for the old man Ferrell, who is one of the pioneers of that region, and one time one of the wealthiest men in it.

A small sized sensation was created in Paintsville last week by the appearance of a woman from Chicago, who claimed to be looking for a Marcus Davis, to whom she says she was married about ten years ago. The woman had only been in Paintsville a few minutes until she met Davis at his home and confronted him in the presence of his wife. At first Davis denied knowledge of the woman but later admitted having married her but claimed to have later obtained divorce. The interview was of short duration for Davis left and has not been heard of since.

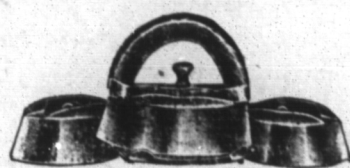

Mrs. Davis No. 1 says she is a daughter of the late William Stafford, of Nats creek, Lawrence county, and a granddaughter of the late John Stafford, of Whitehouse, a pioneer of this section. She says she was married to Davis at Ironton, Ohio, on March 1, 1902, and that after being with her for seven months he deserted her at Huntington, W. Va. She says she went to Chicago where she has since resided and that she got a clew of Davis' whereabouts three weeks ago and started immediately for Paintsville. She made the proper affidavit and caused a warrant to

The North Pole is truly a unique spot on the earth. One standing there would face due south whichever way he looked. He would be about thirteen miles nearer the center of the earth than if he stood at the equator. His weight would be greater than anywhere else on the surface of the globe. A plumb line in his hand would point vertically upward to the pole of the heavens, around which all stars revolve. The North Star would be directly over his head. Half of the stars he could never see; the other half would never go below his horizon and would be visible throughout the six months of night. There the sun rises and sets only once a year, giving six months daylight and six months night, mitigated only by a little twilight at the beginning and end of a period of awful gloom, broken by occasional sunlight or aurora. He who finds his latitude in the Northern hemisphere to be 90 degrees knows he can be nowhere else than at the North Pole.

It is all well enough to practice economy in the household, and saving in the kitchen soon tells in the expense column; but the most important saving in any household is the saving of the wife and mother. If no one else sees the necessity of this branch of economy, the wife and mother should make it her business to save herself, no matter what other waste occurs.

OUR BOY.

"Train up a child in the way he should go.

Don't send my boy where your girl can't go.

And say, "There's no danger for boys, you know.

Because they all have their wild oats to sow.

There is no more excuse for my boy to be low.

Than your girl. Then please don't tell him so.

Don't send my boy where your girl can't go.

For a boy or a girl, sin is sin, you know.

And my baby boy's hands are as clean as white.

And his heart as pure as your girl tonight."

Solomon did not set up one standard for the girls, and another for the boys; he says, "train up a child." One child in the dear home nest is as lovely to us as another, and yet there are but few homes where the boys are as tenderly shielded as the girls. We are not quite as careful to watch their daily formation of habits and their conversation as we are that of the "girlies." They are

more exuberant in spirit, and we send them out of the house for the sake of quiet—after that the girls may practice their music. And while the latter are busy with study and the beautiful sentiment of song, the boys likely get into mischief and receive reprimand or punishment from the head of the house. Or worse still, fall in with a crowd of young fisherman and wander with them along the creek hearing much they ought not to hear.

So we see while the girls have been gaining in things good and beautiful, the boys have been losing. When shall we begin training? Begin while baby is in the cradle. The very way they handle their toys can be made object lessons of gentleness and quiet behavior.

o o o

We all need help and encouragement at times, and to whom shall we turn in time of need if not to our own; those who have the same blood in their veins, and who have been brought up at the same fireside? Unfortunately many men and women have found strangers more ready to help them than their own kinsmen, but that does not alter the ideal relationship, nor is it an excuse for any of us to treat our own unkindly. We should be loyal, and the sooner we learn to say as little Ned, "I have to love all my kin," the better will the world become. The world is but a large home, and the child who learns the gospel of love and loyalty at his mother's knee, and practices it among his brothers and sisters, will carry into the life of the world a spirit of helpfulness that will go far toward destroying selfishness and sin.

o o o

POVERTY.

"Give me neither poverty nor riches" is a reasonable prayer. Poverty is a great curse, despite all the fine sentiments we hear about it from people in warm homes, who are well fed and have good clothes on their backs. It embitters manhood; it saturates woman's heart with gall. It begets envy and fretfulness with one's lot; it makes men roll fiery eyes and utter hard speeches on the good of others, only because it is not their own. It furrows the face of beauty with "crow's feet," or the unsoftened lines of care. It makes its victims hard hearted, hard faced and quarrelsome in speech and conduct. It robs the heart of all refining influences by taking away all means of culture. It puts intellectual taste on the treadmill in quest of bread. "It maketh even a little child with heavy sighs complain." It chains a man's nobility to his stomach, which goads him to desperation by its unappeased cravings.

Yes, poverty will toughen the fibers of endurance and bring a kind of grim patience. It will make our wills more determined and imperious, but it takes great grace to get out of it anything amiable, tender, loving and happy. The soul is not tortured into goodness.

Concerning That Sunflower.

Editor NEWS.

Dear Sir:—I desire to write a few lines through your paper in answer to a statement from one M. G. Berry, of Louisa, and also from a lady of Winchester, Ky., making a demand upon me for a "V" spot as a reward for a sunflower that had more flowers on it than one that I had authorized a friend to write up and offering five dollars for one that had a larger amount of flowers than mine.

Now, in answer to this will say that at the time I had this written up it only had 72, but increased from 19 to 15 each day until it reached 132 well developed flowers and measured 5 inches in diameter at the ground. If either Mr. Berry or the lady from Winchester can produce evidence a larger sunflower than the one above mentioned, the V spot will be forthcoming. Otherwise I should like for them just to send me one dollar each for annoying me with having to write a reply to their demand for the V when it was not due either of them by just a whole lot.

Now, if anyone doubts this statement and requires it of me, I shall be glad to furnish affidavits bearing me out in all I have said regarding the size of this giant sunflower.

Thanking you in advance to publish this for me, I am yours with kindest regards,

Chas. C. Flanery.

WEST VIRGINIA NEIGHBORS.

Sometime during Tuesday night of last week, fiends in human form entered the home of Mrs. Bettie Justice on Laurel Fork of Knox creek, about one mile from Hurley, and, after securing a sum of money, said to be about \$2,400, killed Mrs. Justice, her daughter and son-in-law, Mr. and Mrs. George Meadows and their three babies. The house was then fired to hide the evidence of the crime.

Some of the victims were shot to death, as the firing alarmed the near-by neighbors to the Justice household, but the fiends used other weapons to compass the death of their victims. All the bodies except that of Meadows were incinerated but a search revealed Meadows' charred remains a short distance from the ruins. His skull had been crushed with some blunt instrument.

The object of the fearful crime was robbery, it being known that Mrs. Justice had a large sum of money about the house. On the day before Meadows had drawn about \$400 from the Ritter Lumber Company for some timber and it is presumed that this fact was also known.

It is stated that Mrs. Justice secured \$2,000 from an insurance company that carried a risk on the life of her first husband, Justice. It is claimed, was killed by Mrs. Justice's father some time ago. Mrs. Justice married a man by the name of Blankenship but did not live with him long, and was known in the neighborhood by the name of Justice.

While the Justice home is on a farm about one mile from Hurley it is not entirely isolated. The shooting was of such an unusual nature that the neighbors started to investigate, and they arrived to find the house in flames. No one could be seen, but as soon as the murder was discovered a telephone message was sent to Freeburn for the bloodhounds kept there by Jim Woolford.

The hounds soon struck a trail, leading up a "swag," the only approach to the house without passing other houses. The trail led to a cornfield where footprints of three different sizes were found.

Mr. Leotis Riley, of Williamson, who was at the scene of the murder, states that the parties under suspicion will soon be apprehended. The feeling is such that the people will likely take the law into their own hands.

All the men employed at Hurley by the Ritter Lumber Company, about 130 in number, entered the chase at the direction of the company officials and every foot of the country is being searched.

Wiley Compton, a nephew of Mrs. Justice, seized a gun as soon as he heard of the murder with the intention of searching for the fiends, but in trying to load the weapon it was accidentally discharged, the contents striking him in the foot. A physician dressed the wound and Compton shouldered his gun and went to the woods.

Mrs. Justice was well known in that section of the country, and leaves a number of well-to-do relatives. They say that they will spare no expense in hunting down her slayers.

A telephone message received at Williamson at noon Friday says that the three men hunted down by the cubs were not placed under arrest. The telephone line between Devon and Hurley has been out of order so that no late information could be obtained.

Officers of Buchanan county joined the posse in the pursuit of the suspected parties, and will try to prevent a lynching. The posse was not sure enough as to the guilt of the parties to take the law into its own hands but indignation is running high.

The trio under suspicion have stoutly denied any connection with the crime. So many of the relatives of the Justice family visited the scene that it was feared that the dogs would take up the trail of some innocent party and mislead the pursuers.

At dark Wednesday the dogs were housed near Blackie but were put to work again Thursday morning and soon stopped at Blankenship's house.

KENTUCKY

Has Natural Advantages Over Other Sections, But Overcoming Spirit is Lacking.

Filled with enthusiasm for the West, but more appreciative than ever of the natural "advantages" of Kentucky, John B. McFerran has returned to his home in Louisville, after having spent six weeks journeying through the Far West and Northwest, whither he went to see the advantages that part of the country has over this.

"I confess," said Mr. McFerran, "that from the much reading of articles at various times on that quarter of our great country, I was much impressed, and favorably, as to their superior attractions. I found a vigorous and active people, mostly young and of middle life. They consist of the young, active and restless men of Kentucky and other Eastern, Southern and Middle Western States.

"They have, as was to be expected, developed a dauntless spirit, and they have many obstacles to overcome, they are doing it by sheer push and hustle.

"But the natural advantages of Kentucky are not one whit behind anything they have to offer in the West. Nay, I think they are far superior, but the difficulty is, and it is a mountain, that we have not the overcoming spirit that they have out there; have not the same confidence in ourselves and in our State.

"We lack sadly the co-operation among ourselves that is absolutely so necessary in the doing of things in large ways, and most of all, the average of us, intelligence, information, broad views of things, and hustling industry to put things into active operation.

"This section is advertised as no section ever was since the world began. They avail themselves of newspapers, magazines, and every other method, to bring their part of the world into the favorable notice of every other part of it, and they stop at no expense or effort that seems likely to aid, whereas we drone along in sleepy indifference to it all, and our young men, who are the real life and hope of the State, get their education and start off for the far country, and getting there they naturally do not like to acknowledge failure, and so stay on, working and enduring hardships, the half of which faced at home, as there, would bring the bag of gold at the end of the rainbow with certainty.

"The truth is we must wake up here in Kentucky, educate our children better, both in city and country, have better roads, develop confidence in our State and in ourselves, wake up the old people as well, get our moneyed men to keep their money at home; put it into home enterprises.

"We are in the very center, almost, of this great country, with its teeming and ever-increasing millions, with all their myriad wants to be supplied. Having most excellent transportation facilities already provided, this will keep our young men at home, and bring others from distant places, and thus, in a few years, a transformation will be brought about in dear old Kentucky that will astonish not only ourselves but the world as well.

"In many places in the West and Northwest they lay great stress upon their fruit-growing capacity, and much of it is fine and it brings large prices in the world's markets. We buy, for instance, quantities of cantaloupes at \$3 to \$5 per crate, and after paying very heavy transportation charges, the growers out there claim a profit of \$100 to \$200, and even as high as \$300 per acre.

"Now, we can produce as good melons here in Kentucky as they can; have done it. I have done it myself. But we must take pains with planting, in proper soil, proper seed, proper cultivation and careful method of marketing. It is so with fruits, apples, pears, peaches, grapes, small fruits. We can produce better fruits of this kind than they can anywhere in the West, California not excepted, but we can't do it by sacking a half-dead apple switch in the ground and leaving it to nature to care for. They do not do that way out there. Their orchards are cultivated like gardens, trees cared for like children. They do not shake the trees and let the fruit fall on the ground and then shovel it into old empty flour barrels, then off to market for what they will bring. Then, the price being small, as it ought to be, curse the land and declare it no fruit country.

Address as above.

In Memoriam.

Died, September 4, 1900, at the age of three years, Ivory Pearl, little daughter of Mr. and Mrs. Thaddeus Hanson.

How brief was its life's little day! The morning of its existence had scarcely begun before it ended. Its earthly life was like a dream, and the awakening was in heaven. Like a tender flower, fresh from the hand of God, it came into the world to exist for a short season only, and then to pine away. Oh, how full of mystery are the ways and purposes of the divine Master. But His will is supreme and "He doeth all things well."

There are times when afflictions gather around us like a gloomy cloud, and in bitter anguish we wonder if He has forsaken us. All these trials are for some all-wise purpose.

Weep not, grief stricken father and mother. He who has said, "Suffer little children to come unto me, for of such is the kingdom of heaven," has taken your darling child to His own bosom to shelter her from harm evermore.

Sad, sad, is the thought that those dear lips which you have so oft fondly kissed are now sealed in death. Sad is the thought that a new made grave marks the spot where its little body lies, where the sighs of the bleak winds of winter or the songs of the birds in spring will never wake her from her slumber.

But God knows best; He gave; He has taken away. May He comfort you both in this hour of your great sorrow and may you also be consoled by the blessed assurance that "all things work together for good to them that love the Lord."

I wonder do they need them, Little ones we cherish so, 'Mong the many mansions promised By our Savior here below?

Yes, they need our earthly treasures In the better land on high, There we'll find our precious darlings On the play ground of the sky.

Clean Bread

5 CENTS A LOAF

The Bread That's Guaranteed

EVER hear of a guaranteed bread before? Sounds queer doesn't it. But that's the kind of bread the Clean Bread is—a bread that's guaranteed—a bread that must please you or your money is refunded.

BUT CLEAN BREAD is more than simply a guaranteed bread, however. It is a "home made bread." A bread such as you, Mrs. Housewife, bake in your own oven made in the very same way, yet it is a better bread, because it is made under the same condition day after day, by expert bakers who have spent years in practical bread making.

CLEAN BREAD is exceedingly rich in gluten. Much richer in fact than your own home made bread, because it is made from flour milled especially for our exclusive use—flour that produces a fine grained solid snowy white loaf, yet retaining all the nutriment of the whole wheat.

CLEAN BREAD is made in a clean, sanitary bakery, and baked in the finest continuous baking oven in the world.

We want you to try one loaf of CLEAN BREAD. We want you to taste it in every way possible, and if it doesn't suit you absolutely—if you do not think it is even better than the "home made" bread you bake, your grocery will refund the purchase price.

Now, that's claiming a heap for a loaf of bread, isn't it? But you'll agree with us that CLEAN BREAD is the best bread you have ever tasted, after you have sampled your trial loaf. Order from your Grocer.

SWEPT OVER NIAGARA.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—Dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see Backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at A. M. Hughes.

The Henry Clay Literary Society held its fourth session at the school house last Friday night. There was barely standing room for the crowd. It was so large. The program was carried out almost perfectly and was received by the audience with shouts of approval. The debate was one of the most interesting ever listened to. The vote of the committee stood one for the affirmative and two for the negative. It must be said that the Plaine representatives, although defeated, made very masterly efforts. The speakers were at their best and did honor to their respective communities by their brilliant oratory. The subject for Friday night is, Resolved: That capital punishment should be abolished. The Blaine speakers have the negative.

Mrs. D. M. Moore, who has been so critically ill with fever, is somewhat better.

D. B. Johnson, A. Castle and several others left recently for Ohio. Several people attended the trials at Squire Berry's last Saturday.

Robert Meade, who has been visiting relatives and friends at this place for some time, left Tuesday for Washington, D. C. He has been enlisted in the Marine corps.

The Misses Grace Moore, Hattie Jordan, Hattie Moore and Master Wesley Moore, of Ledocio, attended literary at this place Friday night.

Luther Burton, of Prosperity, was at this place Friday night.

George Swetnam and Granville McComas, of Wilbur, passed down our creek last week.

Anthony Blackburn and Mart Laney, of Little Blaine, attended the I. O. O. F. meeting at this place Saturday night.

Mrs. Preece, of Richardson, and Miss Lula Toler, of Williamson, are visiting Mrs. J. D. Moore this week.

Milt Smith, Foraker Cordle, Lum Steele and several more from Brushy attended the ball game here Saturday.

OUR NEIGHBORS.

The big campmeeting that is held annually will begin at the camp ground at Island Creek, a mile or two above Pikeville, the last of the week.

J. F. Pauley, N. J. Auxier and Geo. D. Kendrick, of Pikeville, have purchased all the poplar, ash, cucumber, walnut, oak and linden timber on the Dils tracts of land, on Far Chloe and Red Creek. Consideration about \$9,000. They will begin to construct team roads on next Monday, under the firm name of J. F. Pauley and Company.

Pikeville, Ky., Sept. 27.—There will be a series of fourteen entertainments given at the College Chapel this autumn and winter, in connection with the College, part of the proceeds to go toward the purchase of a new piano, which is badly needed in the music department of the College proper. The first of this series will be given on the night of October 5th by the Columbia Concert Company.

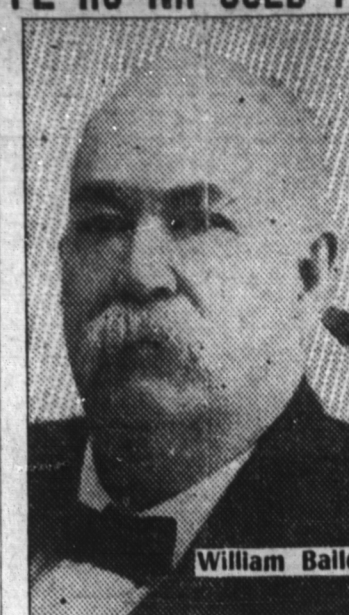

West Virginians are preparing to celebrate the battle of Point Pleasant, W. Va., the first battle of the Revolution, and the unveiling of the monument, and West Virginia Home-Coming, all of which occurs October 7th, up to and including the 10th. This grand event is the all absorbing theme of discussion in that part of West Virginia, and will attract an immense throng of visitors from the tri-states. The program is quite an elaborate and interesting one.

John M. Segraves, of Paintsville, and J. P. Lavin, of Dvale, were in Pikeville this week. They had been traveling throughout portions of that county and Virginia, and were in the vicinity of the fearful murder in Buchanan county, Va., the next day after it occurred. There were four little children among the slain, whose bodies were all burned except that of one man. Mr. Segraves states that \$900, that had been buried in an old pot, was found under the ruins of the burned building.

The 2-year-old infant son of Mr. and Mrs. Alex Elliott, of Pikeville, died Saturday forenoon of spasmodic croup. The remains were taken to John's Creek for interment in the May burying ground. The deepest sympathy of the community goes out to Mr. and Mrs. Elliott. Little more than a year ago their little 4-year-old daughter, Opal, died after only a few days' illness. They had previously lost two smaller children, and this leaves them only one child, a boy. Mrs. Elliott has just recovered from an attack of fever.

PE-RU-NA USED FOR KIDNEY CATARRH.

William Bailey.

Gen. A. F. Hawley, of Washington, D. C., writes: "I have used Peruna and find it very beneficial for kidney trouble, and especially good for coughs, colds and catarrhal troubles."

Gen. A. F. Hawley.

Kidney Trouble for Nearly Thirty Years.

William Bailey, Past Col. Enc. No. 89, Union Veteran Legion, and prominently identified with many of the great labor protective associations in Chicago and New York, and secretary of one of the largest associations in the former city, had for nearly thirty years been afflicted with kidney troubles.

Within a short period he has been persuaded to try Peruna, and his present healthy condition is attributed to his judicious use of that great remedy. Washington climate is notoriously bad for kidney and liver troubles, yet by a judicious use of the remedy he is now quite cured and in excellent physical condition.

This brief statement of facts, without exaggeration or hyperbole, appears to tell the whole story, which the Peruna Company is authorized to use, if it so chooses, believing, as I do, that by so doing it will be for the general good.

William Bailey, 581 St. N. E., Washington, D. C.

Kidneys Affected—Back Weak.

Mr. M. Broderick, Secretary and Treasurer Local Union No. 406, International Brotherhood of Teamsters, writes from 436 E. 46th St., Chicago, Ill., as follows:

"I have been suffering from a weak back and kidney trouble for some time, and have been able to find relief only through the use of Peruna.

"During the winter season I usually keep a bottle of your medicine in the house, and by taking a dose at night I am feeling fine the next morning.

"Some of my friends assure me that Peruna is equally as good for their various ailments as it is for my complaint; but I do know that for kidney trouble and suffering from a weak back it has no equal."

Cold Settled in Kidneys.

Mr. Joseph Klee, 245 East 4th St., Topeka, Kas., writes:

"My wife took Peruna for liver trouble and a run-down condition incident to

the same. A few bottles built up her health and strength.

"I took Peruna for a cold which settled in my kidneys, giving me much pain. In two weeks I was much better, and in a few months I was well."

For Liver and Kidneys.

Mr. W. H. Armistead, Cumberland, C. H., Va., writes:

"Your Peruna has cured me of chronic catarrh of long standing. I thank you so much for your advice. I think it is a great medicine. It will do all that you recommend it to do. Besides, I can recommend it to cure all liver and kidney troubles."

Chronic Kidney Trouble.

Judge C. J. Park, R. F. D. 1, Buckhead, Ga., writes:

"For a long time I was troubled with catarrh of the kidneys, and after taking Peruna I feel like a new man. I think it the greatest catarrh medicine of the age, and believe it will cure any case of catarrh on record."

WORDS TO FREEZE THE SOUL.

"Your son has Consumption, his case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks' use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds, its the safest, surest cure of desperate Lung Diseases on earth. 50c and \$1.00 at A. M. Hughes. Guarantee satisfaction. Trial bottle free.
